Placed to neither Sell nor Party.
But Established for the Benefit of All.

TUESDAY, APRIL 10, 1894.

Is there any difference in degree of guilt between bribery, or buying of votes, and intimidation of voters by threatening them with loss of employment? Both are given heavy penalties in all advanced election laws, and when proved against a candidate or his agent are causes of voiding an election.

If the reports of President Cleveland's designs on Pearl Harbor are correct, his policy in that respect is to satisfy all reasonable American claims on the islands. The counter-part of that policy will be to satisfy the demands of justice toward the Hawaiian people, which he has declared to the world have been cruelly outraged by representatives of the United States.

Letter from the Aloha Aina.

EDITOR BULLETIN:
In answer to an erratic editorial in yesterday's Honolulu, attacking your paper, I wish you to state that the card of the Hui Aloha Aina, published in Saturday's BULLETIN, was official and correct, and written by the true President, Vice-President and other officers of this Association, who have "full right to speak for that organization," all the more so, since their course was ratified and even emphasized by an executive vote of 17 against 1. I wish further to say that I am surprised that you should have given out the name of Mr. Marques to the editor of the Honolulu, who has nothing to do with the Hui Aloha Aina, and no right to any knowledge of its operations.

Yours truly,
JOSEPH NAWAHI,
President.
J. E. BUSH,
Vice President.
Honolulu, April 10, 1894.

[Had the officers signed their card inserted on Saturday, as they should have done, there would have been no misunderstanding. On the face of it the document purported to have come from the Hui Aloha Aina, so that it was in no wise an anonymous communication. The name of Mr. Marques was given to the principals in calling the mass meeting (not to the editor of the Honolulu), simply to show that it was not an irresponsible production as some seemed to regard it. There is much suggestive of the cur species in the Honolulu's snapping at Mr. Marques, after the very recent filing of many pages of that paper with the product of his pen. It ought not to be necessary to inform the Honolulu that its opinion is never considered in deciding what shall be admitted to the BULLETIN's columns. If the Aloha Aina desires space for its respectful views on any subject, it can obtain it here in the future as in the past.—EDITOR BULLETIN.]

JUDICIARY JOTTINGS.

Final Settlement of King Kalakaua's Estate.

Elizabeth Harvey by C. W. Ashford her attorney has given notice of appeal against the decision of Judge Whiting admitting the will of C. Manuao to probate.

Judge Cooper has approved the final annual account and granted the discharge of Dr. Trouseau, administrator of the estate of the late King Kalakaua. Receipts were \$14,172.18, and expended \$8,353.19, leaving a balance of \$5,818.99 less legal expenses for the sole devisee, Dowager Queen Kapiolani.

J. F. Haeckel has filed a bond for \$20,000, with E. R. Hendry and E. Suhr his sureties, as assignee of S. Ehrlich, bankrupt.

The Banning appeal hearing was concluded at noon to-day.

Judge Whiting is hearing the jury-waived case of Allen & Robinson vs. F. H. Redward. Hatch for plaintiff; C. W. Ashford for Redward; Carter & Carter for Hawaiian Lodge, F. & A. M.

A Present Visitor.

In the Examiner of March 20 is a long account of the departure of Rev. W. D. Nicholas, D. D., for Honolulu by the Australia. He was assistant to Dr. Mackenzie in the pastorate of the First Presbyterian church. Many of the congregation got wild at him for becoming engaged to Miss Edna Groves of Oakland, soprano in the choir, she being a Roman Catholic. Dr. Alexander advised him to come to Honolulu, as there was a vacant church here.

All kinds of Commercial Printing promptly executed at low rates at the Bulletin Office.

LATE FOREIGN NEWS.

SAN FRANCISCO, March 24.

Per Bark Albert.

UNITED STATES.

Judge Chetain has decided that a prima facie case of insanity has been made out in the case of Prendergast, the slayer of Mayor Harrison, and that he would grant a stay of two weeks to determine the matter. Money-pik, a suburb of Norfolk, Va., has been burned. Loss \$300,000, two-thirds insured.

Congressman Wilson is still lying ill at San Antonio, Texas.

A majority of Congressmen are besieging the White House to procure the President's signature to the bill for coining the silver signature. On the other hand, the President is overwhelmed with letters and telegrams from business men in all sections imploring him to veto the bill. J. C. Cramp, of the famous Philadelphia shipbuilding firm, is visiting San Francisco.

There is danger of a strike on the Union Pacific Railway.

Railway traffic in the west and northwest has been impeded by deep snow.

Commodore William D. Whiting, U. S. N., retired, is dead in the 71st year of his age.

CLOSE OF THE CENTURY.

A committee in New York is arranging to have the liberty bell rung at Bethlehem on Christmas Eve, 1899. Jerusalem is to be connected by wire with all parts of the world, and half an hour before the ringing of the bell all telegraphic business is to be suspended. Every congregation in Christendom is to meet in its place of worship, and when the bell is rung the message, "Peace on earth," will be flashed over the world at the same moment.

SPORTING ITEMS.

The "Kentucky Rosebud," Walter Edgerton, colored, knocked out George Dixon, the bantam champion, in Philadelphia on the evening of March 24th in a boxing match. Dixon was squarely knocked out. Edgerton had been in secret training for three weeks, and Dixon did not expect the blow that knocked him out. He has challenged the "Rosebud" for \$10,000 a side.

Champion oarsman Gaudaur announces he will row Harding, the English champion, three miles for \$2500 a side, the championship challenge cup and the championship of the world, the race to be at Austin, Tex., in May, or Pullman, Ill., in June.

THE SUGAR CLAUSE.

A Washington despatch of March 19 says the sugar amendment as given out that night, from the Democratic members of the Senate Finance Committee, places the duty on all sugars up to 80 degrees by polariscope at 1 cent per pound. From 80 to 90 degrees 1-100 of a cent additional is added for each degree, and from 90 to 98 degrees 2-100 of a cent is added. On all sugars above 98 degrees, or above No. 16 Dutch standard, 1 of a cent per pound is added, making them dutiable at 1.385 cents per pound.

Senator Bruce is of opinion the whole matter would end in all sugars being made free.

Senators Hill, Murphy, Smith, Gorman, White of California, Caffery, Blanchard and Bruce are accused of conspiring with the sugar trust to defeat the Wilson bill.

A bill is to be introduced to preserve the sugar bounty and put 6 percent duty on refined sugar.

AN ARMY OF TRAMPS.

An "army of peace," headed by General Coxey, is marching to Washington to demand the passage of bills presented by Senator Puffer, the Populist leader.

A detachment of unemployed from Los Angeles, gathering on the way, reached El Paso March 21. General Fry in command of it was arrested and put in jail for vagrancy. A proclamation from the Mayor of El Paso said the so-called industrial army, numbering 900 to 1000 men, would arrive there that night (21st). They had been robbing and plundering all the way, and the Mayor warned the people to prepare themselves for the protection of their property and their families.

Washington people were at first amused at the accounts of Coxey's army, but now regard seriously the prospect of a horde of unemployed people from all over the country gathering in front of the Capitol. A. E. Redstone, an advance agent of the army, expects 100,000 men to arrive at Washington by May 1.

Detectives will accompany the contingent from Chicago, which is likely to have many crooks in its ranks.

Spokane, Wash., will deliver itself of 1000 men to join the army.

SHOCKING MURDER.

William A. Herriek, assistant cashier of the San Francisco Savings Union, was shot dead at his post, at 9 o'clock on Friday morning, March 23, by William Frederick, formerly connected with the Evans and Sontag gang. W. S. Melvin, a book-keeper, fired two shots at the retreating murderer. After a hot chase through the streets the murderer was captured under a shanty at the Mission, where he had crawled in an exhausted state from wounds. A piece of glass had put out one eye, and he had a bruise from a glancing bullet over the heart. Frederick called himself William Frederick Bonhomme, but admitted he was the man known as William Frederick. He is the criminal who smuggled weapons to John Scatag in prison, and who shot Sheriff Pascoe and a brakeman about a year ago. According to his statement it was a shot from the murdered cashier that hit him in the eye. His object was plunder. He threatened the cashier with a bottle of alcohol, pretending it was nitro-glycerine, if he would not show him into the vault. When he had got what he wanted there he was going to lock the cashier in. His plan failed through the cashier's reply to his demand with a revolver.

OTHER LANDS.

The schooner Niuroahiti, which was stolen by the Rodriguez brothers, who murdered the crew and then turned pirates, has been returned to her owners at Tahiti by the French Government. She had been taken to France with the pirates when captured, and the pirates were tried there and executed.

Smallpox has broken out among 77 Chinese in the Canadian Pacific bonded warehouse, in the heart of the city of Victoria, B. C. The Chinese had all come over by the last steamer, and six carloads of the steamer. All the cabin passengers and Chinese had been vaccinated and subjected to a strict medical examination before embarking in China.

TROUBLED BRAZIL.

A Rio Janeiro despatch of March 22 says President Peixoto has received imperial decrees, authorizing the execution without formal trial of all persons who have taken arms against the Government. Foreigners are not excluded. As there are a great many state prisoners in custody, the possibilities are tremendous.

The United States, Great Britain and Italy have jointly recommended to Brazil that a humane course be adopted in regard to the insurgent refugees on board of the Portuguese warships. It is urged, in support of their recommendations, the insurgents have committed no crime against the common law.

Admiral Mello has been chosen Chief of the Provisional Government of Brazil, which still shows fight in the south against Peixoto's Government. General Hipollito, in command of the Government forces, is hurrying to Santa Maria with a force of 2000 men.

THE MOSQUITO COUNTRY.

The latest from Bluefields, Nicaragua, is that the British are in practical control of the entire reservation. There now seems to be no attempt whatever to bring about a peaceful government. The commander of the British warship Cleopatra has assumed control of the government to a certain extent, and this is about all the government there is in the city.

The battleship Blake had arrived and would likely remain, the Cleopatra going north.

A letter from Capt. E. T. Ryder, formerly a resident of Provincetown, Mass., now a resident of Bluefields, says that if it had not been for the coming of the Cleopatra all the American and foreign residents would have been killed.

Captain Ryder continues: "After the formation of the Provisional Government the commander of the Cleopatra compelled the Spanish troops to retire to Greytown. They sailed for that place on the Cleopatra on the 5th inst. Lieutenant Colonel Mann of the ship and seventy-five marines were left to prevent further trouble. After the vessel sailed it was found some of the Spanish soldiers were still in town. That night a frightful riot commenced between the Spanish soldiers and the natives. The streets were filled with armed men, and the greatest excitement prevailed. Two soldiers and one native were killed and several seriously wounded. The foreign residents sent for Colonel Mann, encamped a short distance down the river. He came to our relief, and has since remained in charge of the town.

The Cleopatra returned on the 6th and increased the number on shore to 125. Yesterday, March 9, 400 rifles and 35,000 rounds of ammunition were found in the brush near town, and to-day 14,000 more cartridges were discovered, having been concealed by the Spanish soldiers. It is believed they intended to return when the warship went away and sack the town. The Americans asked the commander of the Cleopatra to stay here and protect them, and he promised to stay until relieved by another ship. If it had not been for our British cousin God only knows what would have been the fate of our Americans. All business is at a standstill, and no one knows what an hour may bring forth."

The President on March 19 transmitted to Congress the answer of Secretary Gresham to the resolution offered in the Senate by Morgan of

at S. S. "Arrows" from Sydney, April 1st.

Terms Cash in U. S. Gold Coins.

Lewis J. Levey.

1005 D AUCTIONEER.

Alabama calling for information relative to the recent British occupation of Bluefields. The letter from Secretary Gresham states that a new declaration has been received from the British Government saying that nothing like a protectorate over Bluefields is intended by that Government.

EUROPE.

It is said that the Queen and Prince of Wales have given their consent to the marriage of Lord Rosebery with Princess Maud of Wales.

Louis Kossuth, the Hungarian patriot, died March 20, aged about 92 years.

Rioting has taken place at Budapest, led by students who smashed windows in houses not decorated in honor of the dead patriot, Louis Kossuth.

The Pope has issued an encyclical to the Bishops of Poland, Russia, Austria and Prussia, exhorting them to avoid any spirit of hostility to the civil authority.

The Paris Sanitary Conference is taking precautions against cholera from the East.

Hood's and Only Hood's.

Hood's Sarsaparilla is carefully prepared from Sarsaparilla, Dandelion, Mandrake, Dock, Pipsissewa, Juniper berries and other well known remedies, by a peculiar combination, proportion and process, giving to Hood's Sarsaparilla curative powers not possessed by other medicines. It effects remarkable cures when other preparations fail.

Hood's Pills cure biliousness.

Secured His Services.

Mr. V. G. Potter, crayon and water-color artist, who has been visiting the islands for his health, has made an engagement with Mr. J. J. Williams. Mr. Potter's work while in San Francisco was second to none. Samples will be on exhibition at our studio, 102 Fort street.

Saturday afternoon the Bazaar will

be open from 2 to 5 o'clock P. M. 1001-03

Hawaiian Hardware Co., Ltd.

Saturday, April 7, 1894.

Did you ever notice how an ant combines business with pleasure when out on a promenade, how he will investigate when he runs up against a bread crumb and then go back and tell a large circle of acquaintances who soon become a nuisance. It is to obviate this that we sell the new fangled Bread and Cake Knives. You may cut warm or cold bread, or cake with icing on it and not make a crumb. The set of three—a parer, cake cutter and pie cutter—goes to you for a dollar, and when you've used them once you will say you have a three dollar value.

The latest coast news tells us that all of the treaties under the McKinley bill are repealed under the new Tariff bill. This is going to bring anguish to the breasts of some people, but Hawaii is all right. McKinley did not give us a treaty but he wrestled hard to give us "Ballyhoo." So far as treaty relations with the United States are concerned the sun seems to be shining on the sugar industry of Hawaii; and so long as the sun shines to the extent of a cent and a quarter on sugar every one will be prosperous and happy.

Haviland ware takes a step or two forward in this community when its quality is compared with other decorated china. We have sold this crockery ever since we have been in business and it is now the favorite ware here. Our method of selling it makes it popular because we do not insist upon people buying a full set. We sell, for instance, a half dozen cups and saucers as a starter. If the buyer's friends comment on their beauty and quality it is quite likely the lady of the house will want some plates to add to it. With each piece there will be a growing desire for more until it culminates in the necessary dishes for soup, fish, roasts, vegetables, salads, etc. It is quite the proper thing for people to have different decorations for each course; some people may have a complete set but would like a change for soup or fish. We can make up such a set at a price that will surprise you.

The Fischer Steel Range is by far the best range manufactured; it will heat up quicker and burn less fuel. The first invoice of these ranges that we received were made of material just one half the thickness of the present lot and they cost us more money. While those we now offer you are superior in every respect, we sell them for ten dollars less money. We've sold these ranges to people who have used iron stoves all their lives and who do not hesitate to say that the "Fischer" burns one third less fuel than any other stove the same size. This means that you will save the extra cost of a steel range in a very short time.

For people who want a cheaper article we have several makes of iron stoves which we can recommend. We make a leader of the "Pansy" at \$15, because we believe it to be the best. These iron stoves burn coal or wood and are wonder fully good bakers.

The dry season is coming on and the "25th annual kick of the Water Consumers Protective Alliance" will soon take place. It is not that there is a scarcity of water on the Islands but because the people do not search for it. We have saved the ranch man, the plantation manager and the vegetable grower large sums of money by accepting our advice and erecting Aeromotors. Our 8-foot wheel will do the same work that a 10-foot wooden wheel will perform, and an 8-foot mill is all that is required for stock or irrigation purposes unless large quantities of water are required. The Aeromotor has many advantages over wooden mills, and one of them is the fact that no matter how violent the storm the mill will close up automatically.

CLEARANCE SALE

HOLLISTER DRUG CO., (LIMITED)

528 Fort Street, Honolulu, H. I.

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS

THE UNDERSIGNED HAVE BEEN APPOINTED SOLE AGENTS FOR these SHREDDERS and are now prepared to receive orders. The great advantages to be derived from the use of the NATIONAL CANE SHREDDER are thoroughly established and acknowledged by Planters generally.

The large number of Planters using them in the United States, Cuba, Argentine Republic, Peru, Australia and elsewhere, bear witness to the above claim.

The use of the SHREDDER very largely augments the quantity of cane the mill can grind (25 to 50%), also the extraction of juice (5 to 12%).

It is a great safeguard, making known at once the presence of any pieces of iron, stakes, or anything which would be liable to damage the mill, and allowing ample time to remove same before damaging the mill.

The SHREDDER is very strongly made, and from the manner of its operation it cuts or tears these pieces of wood or iron without often breaking the SHREDDER; and if anything breaks, it is simply some of the knives or cutters, which can be quickly and economically replaced. The SHREDDER, as its name indicates, tears the cane into shreds of varying lengths, perfectly opening it and allowing the mill to thoroughly press out the juices without requiring the immense extra power necessary to grind or crush the whole cane. The SHREDDER spreads the shredded cane uniformly and evenly to the mill rolls, and does away with the necessity of spreading the bagasse by hand between the mills, where regrading is in use. No greater amount of boiler capacity is required to operate the SHREDDER than that which was sufficient for the mill, for the above reasons. We furnish full working drawings for the installation of our SHREDDERS, enabling any competent engineer to successfully install and start them.

In ordering SHREDDERS from us, please send small sketch, showing the diameter and width of the mill rolls with which SHREDDERS to be connected, also the side (either right or left hand as you face the delivery side of the mill), upon which the mill engine is located, also the height from floor line to center of front mill shaft, and distance center shaft to front end of bed plate. These SHREDDERS are now being used by the Hilo Sugar Co. and Hilo Mill, Kohala, where they are giving great satisfaction.

Prices and further particulars may be had by applying to

WM. G. IRWIN & CO., Ltd.,

Sole Agents for the Hawaiian Islands.
